

Finance Organiser

Create a finance organiser, aimed at teenagers.

- ✓ Keeps record of transactions in a database.
- ✓ Use a table with the following attributes:
 - ✓ Transaction ID
 - ✓ Transaction description
 - ✓ Transaction date
 - ✓ Transaction time
 - ✓ Transaction category
 - ✓ Amount
 - ✓ Income or spending
- ✓ Can add money to balance
- ✓ Can remove money from balance
- ✓ Record all purchases and their category (eg clothes, food, entertainment, socialising, hobbies)
- ✓ Plot a pi chart to determine proportion of purchases in each category
- ✓ Outputs the balance and a statement of recent purchases

Advanced

- ✓ Use a GUI
- ✓ Use multiple tables in normalised form
