

Wordle Solver

- ✓ Play Wordle and understand how it works:

<https://www.nytimes.com/games/wordle/index.html>

- ✓ Write a wordle game
- ✓ Use a dictionary of 5 letter words.
- ✓ Extract all the five letter words from a dictionary
- ✓ Chose a random 5 letter word
- ✓ User has 6 guesses, but you can only use words in the dictionary
- ✓ After each guess for each letter you are told whether it is the correct letter in the correct place or correct letter but in the wrong place

Extension 1

Use classes

Extension 2

Use a GUI

Extension 3

Add code that can solve a Wordle
