

# Thursday 4 June 2015 – Afternoon

### **GCSE PSYCHOLOGY**

**B542/01** Studies and Applications in Psychology 2

Candidates answer on the Question Paper.

**OCR** supplied materials:

None

Other materials required:

None

**Duration:** 1 hour 15 minutes

Candidate forename				Candidate surname			
Centre number				Candidate nu	ımber		

#### **INSTRUCTIONS TO CANDIDATES**

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- Answer all the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. If additional space is required, you should use the lined pages at the end of this booklet. The question number(s) must be clearly shown.
- Do **not** write in the bar codes.

#### **INFORMATION FOR CANDIDATES**

- The number of marks is given in brackets [ ] at the end of each question or part question.
- The total number of marks for this paper is 80.
- The quality of your written communication will be taken into account in marking your answers to the questions marked with an asterisk (\*).
- This document consists of 16 pages. Any blank pages are indicated.

### Answer all questions.

# **SECTION A – Cognitive Psychology**

# Perception

I	Fror	the list below, identify <b>two</b> types of constancy in perception.	
	Sho	your answer by ticking the relevant boxes.	
		code constancy	
		colour constancy	
		shape constancy	
		short constancy	2]
2			_
	A	irst Date	
	bus be Su Usir	was going on a first date with Suzi whom he knew from work. He was waiting for her on a y train platform. Max kept mistaking other people for Suzi because he was expecting her to there. In the end, she turned up 20 minutes late. By this stage, Max was so excited to see it that she looked more attractive than normal.  If the source:  If the two examples that show the effect of perceptual set.	
		re	
		[2	<u>:</u> ]
3	(a)	dentify <b>one</b> psychological technique used in advertising.	
	<b>/</b> b\	Outline how this technique can be used to influence an audience's perception of a product	]
	(b)	Outline how this technique can be used to influence an audience's perception of a product.	
		[2	2]

4 Look at the following picture where the depth cues have been labelled.

Label 1 – The bases of the posts that are further away are higher in the picture.

Label 3 – Parallel edges of the shelter converge into the distance.

Label 2 – The writing on the platform is clearer when it is nearer.

Label 4 – People at the front appear bigger than those in the distance.

(	a)	Name the depth cue that is being described in Label 1.	11
(	(b)	Name the depth cue that is being described in Label 2.	-
		[	1]
(	(c)	Name the depth cue that is being described in Label 3.	
		[	1]
(	d)	Name the depth cue that is being described in Label 4.	
		[	1]
<b>5</b> E	Expl	ain ways in which some psychologists criticise the constructivist theory of perception.	

### **SECTION B – Developmental Psychology**

#### Cognitive Development

6

#### **Piaget's Stages**

Piaget believed that children's minds develop in the same way all over the world. He said a child's mind develops in stages which are fixed by age. The first stage lasts from birth to two years and the fourth stage occurs at eleven years onwards.

	Usii	ng the source:	
	(a)	Identify the phrase that refers to the idea of universal stages.	
			[1]
	(b)	Identify the phrase that refers to the idea of invariant stages.	
			[1]
7	Pia	get's theory of cognitive development includes:	
	•	universal stages invariant stages	
	Cho	pose <b>one</b> of these features and outline <b>one</b> criticism of it.	
	Fea	iture:	
	Crit	icism:	
			[2]

0	Out	ine the following stages of cognitive development:	
	(a)	Sensori-motor stage;	
		r.	
	(b)	Formal operational stage.	(2
		[	2]
9		get's theory is just one explanation of cognitive development.  line one other explanation of cognitive development.	
		me one other explanation of cognitive development.	
		[:	3]

10 Piaget (1952) carried out an experiment using rows of counters.

Complete the passage on Piaget's study by filling in the gaps.

	You must choose a	different term for ea	ach gap from the list	t below.		
	conservation	decentration	reversibility	concrete	formal	pre
	Piaget tested the		of number by usi	ng rows of coun	ters. When he	stretched
	out a row of counter	rs, children in the		operational s	tage thought t	here were
	more counters in the	e row. However, chil	Idren in the		operational s	tage knew
	that the properties of	of the row could not	change.			[3]
11	Give <b>one</b> limitation	of Piaget's experime	ent where he used			

# **SECTION C – Social Psychology**

### Non-Verbal Communication

ocial learn	ing theory is one explanati	ion of non-verbal communication.
Draw a line	to match each social learn	ing term with its correct definition.
	Term	Definition
		To watch how a role model is behaving.
	Imitation	
		To copy the behaviour of a role model.
	Reinforcement	
		To receive a negative outcome following a behaviour.
	Punishment	
		To strengthen a behaviour through reward.

15	ruki et at (2007) carried out a study into now facial expressions were interpreted.
	Describe <b>two</b> limitations of Yuki <i>et al</i> 's findings.
	1
	2
	[4
16	Explain how research into non-verbal communication can be applied in real-life settings.
	[4]
	<b>↓</b>

# **SECTION D – Biological Psychology**

#### Criminal Behaviour

17	Some psychologists suggest that one facial feature associated with criminals is a low foreheat	ιd.
	Give two other facial features which have been associated with criminals.	
	1	
	2	[2]
18	Explain <b>one</b> difficulty of measuring crime.	
		[3]
19	Describe how criminal behaviour is explained by brain dysfunction.	
		[4]

20*	Describe and evaluate <b>one</b> study into the genetic basis of criminal behaviour.
	[6]

### **SECTION E – Individual Differences**

#### The Self

Outline other features of the procedure used in this study.  22 Identify whether the following statements are true or false.  Give your answer by circling either TRUE or FALSE as shown below.  TRUE  FALSE  TRUE  TRUE  FALSE  (a) Van Houtte & Jarvis' sample did not represent a wide age range.  TRUE  FALSE  (b) Van Houtte & Jarvis' findings cannot be generalised to other cultures.  TRUE  FALSE  (c) Van Houtte & Jarvis only interviewed females.  TRUE  FALSE	21	1 Van Houtte & Jarvis (1995) used an interview to compare the self esteem of pet owners.	vners and non-
