Mark Scheme for June 2015

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

Question	Expected Answer	Mark	Rationale/Additional Guidance
4 (c) *	Candidates will discuss any three of the following:	[9]	ASSESSMENT OBJECTIVE 3
	The Act has improved the protection of consumers in a number of ways  Producers have to take more care and need appropriate quality control systems  There is also more likelihood now of product recall when a common defect is discovered  It is also means that the consumer has more chance of getting a remedy because he has a greater range of potential defendants from which to choose.  LIMITATIONS  However the Act is also not perfect because of the following limitations;  Not all products, nor all defects, nor all damage is covered by the Act.  Consumers only have a small time frame in which to bring an action.  There are probably too many defences, making it difficult for a claimant to succeed.  The Act is supposed to provide strict liability  Any other relevant benefit or limitation.		Credit should be given for both breadth and depth  Using examples attracts some credit  Discussion – Candidates will gain marks as follows  Level 3 (7-9 marks) – points explained with good reasoning and with effective communication through discussion. The response is well organised, structured, with few errors in grammar, punctuation and spelling.  Level 2 (4-6 marks) – identifies a relevant issue; points made with some elaboration and adequate communication. The response is adequately organised, structured and with some errors of spelling, punctuation and grammar  Level 1 (1–3 mark) – identifies a relevant issue or makes any valid point. Basic points made with basic communication. The response lacks organisation, structure and accuracy of spelling, punctuation and grammar.  (0 marks) – no response or nothing worthy of credit (maximum 9 marks)  To reach L3 - at least one benefit and one limitation must be discussed at Level 3  To reach L2 - there must be at least two Level 2 responses
