Additional Evidence I

Greggs continues its rapid growth

Greggs' vision is to be '... the number one for sandwiches and savouries from a united team who are passionate about being the best in bakery'.

Greggs has made a seamless transition from being a series of regional businesses to a single national company. This growth has been achieved without experiencing diseconomies of scale.

5

Access to a lot of cash makes Greggs plc unusual. In addition, it has a market opportunity to be able to plan for significant organic growth, despite the weakness of the UK economy.

10

Greggs' financial performance is likely to benefit significantly from its continued expansion. In addition to revenues and profits from increasing the number of retail outlets, the company is investing to ensure that these extra shops will be supplied by the existing 10 bakeries. The production efficiencies gained could result in a highly attractive payback period.
